WHY HYDRASMART

Built for the way you live

Every feature is designed around your daily routine, keeping you hydrated, healthy, and on track.

LED Temperature Display

Instantly see your drink temperature on the touch LED screen.

Cold for 24 Hours

Advanced double-wall insulation keeps beverages icy cold all day.

Hot for 12 Hours

Enjoy your hot drinks at the perfect temperature for half a day.

Smart Hydration Reminders

Gentle vibration alerts remind you to drink water at the right intervals.

UV Sterilization

Built-in UV light eliminates 99.9% of bacteria and viruses automatically.

BPA-Free Stainless Steel

Made from premium 304 stainless steel — no toxins, ever.

SPECIFICATIONS

Engineered down to the last detail

HydraSmart is built from premium materials with precision engineering — every component chosen for performance and longevity.

Capacity	600 ml
Material	304 Stainless Steel
Weight	450 g
Charging	USB-C Rechargeable
Certification	IPX7 Waterproof
Display	LED Touch Screen
Sterilization	UV Lamp Built-in
Colors	Black · White · Blue

HOW IT WORKS

Simple as four steps

01

Fill the bottle

Add your favorite drink — water, juice, coffee, tea — up to 600 ml.

02

Configure reminders

Use the LED touch screen to set your personalized hydration intervals.

03

HydraSmart reminds you

A gentle vibration and light prompt nudges you to drink at the right time.

04

Stay clean & cool

UV sterilization keeps bacteria away while insulation maintains the perfect temperature.

COMPARISON

HydraSmart vs. Regular Bottle

The difference is immediately clear.

Feature	HydraSmart	Regular Bottle
Maintains Temperature	✓	✗
LED Temperature Display	✓	✗
Hydration Reminders	✓	✗
UV Sterilization	✓	✗
Premium BPA-Free Material	✓	✗
Thermal Duration (cold)	24 hours	2–3 hours
Thermal Duration (hot)	12 hours	1 hour

TESTIMONIALS

People love HydraSmart

★★★★★ 4.9 / 5 from 2,400+ reviews

★★★★★

"I've tried countless water bottles, but HydraSmart is on a completely different level. The hydration reminders have genuinely changed my daily routine — I feel so much better."

Sarah Mitchell
Fitness Coach · New York

★★★★★

"The LED temperature display is incredibly useful. I know exactly when my coffee is at the right temperature. And the UV sterilization gives me total peace of mind."

James Okafor
Software Engineer · London

★★★★★

"24 hours cold is not a gimmick — it's real. I take this on long runs and the water is still icy cold at the end. The build quality feels genuinely premium."

Elena Vasquez
Marathon Runner · Madrid
